CONCLUZII - Optimism

Argumente - in SEE

- economiile isi vor continua cresterile, chiar daca intr-un ritm mai redus;
- tranzactiile de PE au avut si vor continua sa aiba o componenta redusa de leverage;
- fondurile de PE au lichiditati si nu sunt presate sa realizeze exit-uri;
- antreprenorii vor fi mai putin refractari sa accepte investitori de tip PE in conditiile in care alte solutii de finantare nu mai sunt disponibile;
- evaluarile companiilor vor scadea dupa ce au ajuns la niveluri stratosferice;

SI

- fondurile sunt concetratate mai mult pe **a adauga valoare** companiilor in care investesc decat pe financial reengineering;

A dynamic photograph of a surfer in action. The surfer, wearing a dark tank top and patterned shorts, is leaning into a turn on a bright orange surfboard. A massive, curling blue wave dominates the background, its white foam spraying behind the board. The overall scene conveys a sense of movement, energy, and connection with nature.

“You can't stop the waves,
but you can learn to surf.”

Jon Kabat Zinn
